

WELCOME TO RTS FARMS

Our 200 acre farm is located in the beautiful mountains of Botetourt County, Virginia. Our cattle live a free-roaming, leisurely, stress-free life from birth to processing. That stress free environment also contributes to the quality of the beef and helps our cattle to remain healthy. When cattle are not stressed, they don't create the enzymes that race through the muscles which can toughen the final product.

RTS Farms beef is all Natural and grass fed. Our cattle are Antibiotic Free to reduce the weakening of your immune system, Hormone Free which some research says reduces your risk of cancer and Steroid Free, all which produce a healthier product for you to consume.

Our cattle are never confined but have access to shelter during bad weather. They also enjoy access to clean well water and free flowing spring water. They are free-roaming and enjoy all the exercise they desire.

We think you will enjoy our beef as much as we do.

Virginia's Finest

RTS Farms handles every aspect of our operation except for final processing and sells **DIRECTLY** to you. We are committed to keeping the path from pasture to plate as short as possible.
